Programme Objectives

DAAD (German Academic Exchange Service), as a publicly funded, self-governing organization of the institutions of higher education in Germany, promotes international academic exchange as well as educational co-operation with developing countries through a variety of funding and scholarship programmes.

As part of the „In-Country/In-Region Scholarship Programme“, DAAD offers scholarships for PhD and Master studies at SEARCA. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

The target group for scholarships are graduates and postgraduates from South East Asia with a first academic degree if applying for a Master's programme, or with a Master's degree if applying for a doctoral programme, who want to pursue Master's or PhD courses in their home country (so called **In-Country scholarships**) or in another South East Asian country (**In-Region scholarships**). It has been agreed upon that DAAD cooperates with SEARCA by offering up to 21 In-Region/In-Country scholarships for PhD and Master studies at
